

B Strong

Benefit Barrel Race

SEPTEMBER 19, 2021

"On February 12th, 2020 I was diagnosed with advanced squamous cell carcinoma in my urethra. After a couple surgeries and scans, we learned the cancer had not only returned, but spread. After chemo treatments and additional surgeries, we thought we had caught up to it until multiple tumors returned to both areas and became uncontrollable. In January 2021, the surgeons and I became aggressive back towards the cancer. I underwent another major surgery, followed with radiation, and immunotherapy to rid the fast growing tumors. As before, the cancer returned. At this point, we had a conversation with my oncologist of "What's next?". I was referred and accepted to the National Cancer Institute of Health to be apart of a clinical trail of medicine. This leaves me here in the present, hoping and praying one of these treatments will work." Brandon Bowersox

We are hosting this fundraising event to help support Brandon and his family. All funds raised will go to support the family for medical treatment and transport/lodging needed to support Brandon while he is in treatment. Please help us to support our kind-hearted, patient and loving friend as he embarks on the fight of his life.
