

RENO RODEO "NO FEVER" POLICY

Due to concerns about the recent EHV-1 outbreak, the Reno Rodeo Association and associated events have adopted a "No Fever" policy to help protect any attending horses from possible exposure. All attendees should be prepared with digital rectal thermometers to take their horses' temperatures.

1. All horses will have a temperature taken upon arriving on the rodeo grounds or the ground of the associated event.
2. All horses will have temperatures taken twice daily and results will be posted on the front of the stall/pen for inspection. Forms for recording the temperatures will be provided upon arrival and check-in.
3. Any horse will be subject to random temperature check by the show veterinarian or designated member of the veterinary staff during the event.
4. Any horse with a fever of 102 degrees F or greater will be removed from the event and premises immediately, or moved to a holding area, subject to the discretion of the vet on site.
5. If the owner cannot move the horse off premises, a professional horse hauler contracted by the event will remove the horse to a designated isolation area at the owner's expense.
6. Horse owners should provide their own water buckets and common troughs should not be used and will not be provided.

It is understood that most horses with a fever will not have EHV-1; however, in the interest of conducting a safe event under the circumstances. The "No Fever" policy will be enforced. If you do not wish to comply with these safety measures please do not attend the event.

EHV-1 Non-Exposure Affidavit

This statement is to confirm that, to the best of my knowledge, none of the horses, mules or burros that I have brought to attend any events at the Reno Rodeo have attended or had prior contact with horses from the NCHA Championships in Ogden, Utah and/or the Kern County Cutting Event in Bakersfield, California; or been on the same premise with horses that have returned from these events; or have been in direct or indirect contact with any potential source of EHV-1. I understand that horses that have attended or been exposed to horses returning from either event will not be allowed to enter the show grounds or participate in any Reno Rodeo related events.
