Per WPRA Rule 10.1.15. Breakaway will be set up for at least 10 in each performance unless otherwise approved and stated in the ground rules.

- The calves should range from 200-400#. These calves are to be even with no more than 50# variation across the herd.

Added Money (added by the committee): \$ (\$00.00) # Perfs _____ # Go's _____ # Slacks _____

WPRA Breakaway Equal Added Money Plan

- 2024 – Must have added at least 50% of the barrel racing added money (unless a new rodeo or used an exemption listed below)
- 2025 – Must add at least 75% of the barrel racing added money
- 2026 – Must add equal money to the barrel racing
- 2027 – All rodeos (including exemptions) must add equal money

Exemptions

- * New rodeos adding breakaway roping for the 1st time must meet the minimum added money requirement of \$500. Then their 2nd year having breakaway, they must add at least 50% of the barrel racing and so on to follow the 3-year step up plan to equal money. Each year thereafter the minimum requirement will be increased, and all rodeos must be at equal added money in the breakaway by 2027.
- * If the rodeo is currently limited, and the rodeo removes its limits, they will be given a year of grace to meet the next added money requirement. i.e., In 2025 the rodeo removes its limit on breakaway, so it will not have to be at 75% added money until 2026. This is a onetime exemption, and all rodeos must be at equal added money in the breakaway by 2027.
- * Rodeos that add \$5,000 or more in added money will also be given a year of grace to meet the next added money requirement. i.e., In 2025 the rodeo adds \$5,000, but needs to be at \$7,500 to be 75% of the barrel race, so it opts to exercise this exemption in 2025 and will not have to meet the 75% requirement until 2026. This is a onetime exemption, and all rodeos must be at equal added money in the breakaway by 2027.
